

Product Description:

TS230HLBW Wireless TrueSafe Gas leak detector is designed for early alerting and detection of LPG gas leakage from cylinders. It operates on 230VAC mains. This wall mounted unit is compact and designed for low cost domestic applications. When gas leaks, the detector sends a wireless signal to the control panel as well as generates an audible alarm. The detector also signals a keep alive message to the control panel.

Application:

- Hotel
- Pantries / Canteen
- Home

USPs

- Gas + Heat detection
- Make In India Product
- CE certified
- Wireless range up to 100 meter
- Low power consumption

Product Features & Specifications:

- Kitchen platform panel mountable
- Automatic calibration at the desired level of LEL (Usually 10% of LEL)
- Heat detection
- Wireless range up to 100m
- Generates Keep Alive message

Technical Specification

General Specification	
Gas Sampling	Natural diffusion
Gas Sensor Type	Semi-Conductor
Power supply	230 VAC/50Hz
Power Consumption	2 W Max.
Detection Level	10% LEL
Output	433 MHz RF signal Buzzer (< 85 dB)
Certification	CE
Working Temperature	0°C to 50°C
