

Pet Immunity (PIR) Motion Sensor Detector

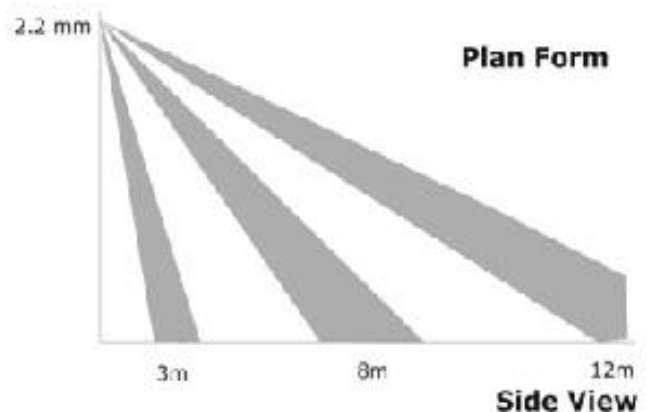

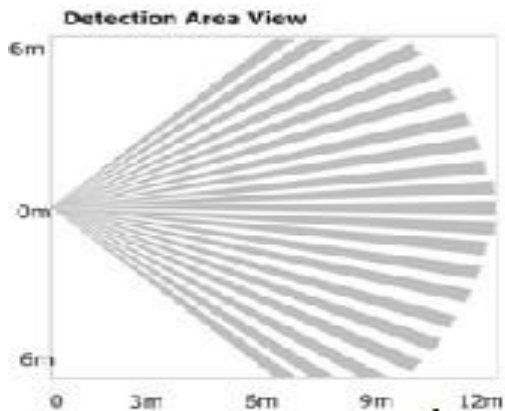

Product Description:

This is wired Pet-immunity passive infrared with high stability. It takes advance signal processing technology, providing super high detection and anti-false alarm abilities and MCU processing ensuring the reliability from the design basis. When the intruder passes through the detection area, the detector will detect the movement of human body automatically. If there are any movements, it will send alarm signal to the connected alarm host.

Application:

- Bank/Branch Office.
- Home, Office & Industrial Security.
- Warehouse /Store room.
- Jeweler Shops etc

PIR- P12

Pet Immunity (PIR) Motion Sensor Detector

Product Features:

- Immunity of less than 12kgs pet
- Double temperature compensation
- Pulse count adjustment
- Anti white light adjustment
- Can install on Wall / corner.

Technical Specifications:

General Specifications	
Operating Temperature	0°C to 50°C
Colour	White
Enclosures	Plastic Body
Electrical Specifications	
Power Supply	DC 9-24VDC
Power Consumption	18 mA
Detection distance	12m & 8m
Mechanical specifications	
Weight	150 to 200 gms
Dimensions	L*W*H (123*62*46mm)
LED Indications and Output	
LED Colour	Red LED- For motion detection
Output	PFC Relay Output
Warranty	
	12 months from date of dispatch for any Manufacturing
Models and Variants	
	V Cop panel series and Sensors
Abbreviations	
PIR- P12	Pet Immunity (PIR) Motion Sensor Detector , 12-

Datasheet Version with Date(V.2 Oct 2020)
