

## Wired Shutter Magnetic Sensors

(Family- Intrusion)

### Product Description:

This magnetic switch is made of heavy-duty solid aluminium die casting body that ensures their longer life. Widely used in numerous industries. These are highly acclaimed for their high performance, easy to use and low maintenance. This switch automatically sense the opening of the shutter and send the signal to the alarm panels in order to restrict unauthorized entry & burglary.

### Applications:

- Home, office & industrial security.
- Warehouse/storeroom.
- Jeweler shops etc

### Product Features:

- Heavy duty solid aluminium dies casting body.
- Wide operating gap 35mm-55mm.
- High performance magnet is used.
- 3ft long stainless-steel armoured cable

**Wired Shutter Magnetic Sensors**

(Family- Intrusion)

**Technical Specifications:**

<b>General specifications</b>	
Operating temperature	0°C to 50°C
Colour	Grey
Enclosures	Solid aluminum die casting body
<b>Electrical specifications</b>	
Power supply	12 V
Current rating	800 mA
Detection distance	Min 35 mm Max 90mm
<b>Mechanical specifications</b>	
Weight	150-200 gms
Dimensions	-
Display	-
Cable entry	1ft long stainless-steel armored cable
Output	N.C.(PFC)
<b>Warranty</b>	
	12 months from date of dispatch for any manufacturing

<b>Models and variants</b>	
	Door magnetic contact, concealed door magnetic contact
<b>Abbreviations</b>	
SMCS	Shutter Magnetic Contact Sensor

Datasheet version with date(V.2 Oct 2020)
